## HERALD MAIL BOX

This column is for Herald readers to express their opinions on questions of the day. They are not necessarily the opinions of this paper.

Dear Editor:  
In regard to the movement going forward to add Fluoride to drinking water for the supposed prevention of dental tooth decay, I wish to state my views for the consideration of thinking men and women, regarding this important subject.

It seems to me that both sides of this question should be thoroughly investigated and if this movement is to be based on the light of free discussion then there is something radically wrong with it, not merely what claims it makes.

Here are some facts for your consideration. First of all consider the definition of Fluorine. From Taber's Medical Dictionary, 1933 issue, "Flourine — This is found in the soil in combination with calcium, and in all such mineral deposits must first be absorbed by plant life and taken into the animal body as food before they can be assimilated." To put flourine in the water supply would not be a natural way of the teeth obtaining this element.

Dr. Royal Lee D.D.S., President of the Lee Foundation for Nutritional Research, Milwaukee, Wisconsin, says: "Inorganic flourine is a cancer causing agent—it accumulates in the body even if taken in very small doses. Organic flourine does not accumulate in the body, regardless of the dosage."

Dr. Harry L. Dietrich, Director of the Nutrition Biochemical Laboratories of the Massachusetts Institute of Technology says: "There is plenty of evidence that one part per million of flourine or a little more in the drinking water interferes with the enzyme system which is involved in the growth of bones and in the functioning of nerves."

A.M.A. Does Not Endorse Fluoridation  
North Central Medicine, Jan. 1952, page 48, says: "The American Medical Association has not endorsed fluoridation of municipal water supplies, the Council on Foods and Nutrition notified Washington State Medical Association."

In a personal survey of 1500 dentists, Dr. Paul Manning, DDS (life member of A.D.A.) did not find one who would use flouride on his own children's teeth.

Dental Organization  
119 dentists in Worcester, Mass., signed petition headed by Dr. Max Genna, M.D., demanding fluoridation as being unnecessary — Does not prevent tooth decay. Accumulative Pollution — Harmful to all human beings — good teeth are due to better nutrition — better Hygiene.

In addition to all the above statements which are convincing within themselves, consider the fact that compulsory medication is contrary to the funda-

## Curricula In Elementary School Includes Modern Library Methods

With only the aid of a trained librarian one hour each day, the elementary school library is one of the most active spots in the school. It serves grades one through eight. Many improvements have been made during this past year and others

and Mr. G. W. McClure deserve praise for the work that has been done in setting up the organization and administration of the work involved in the smooth running of it. Mrs. Jones spends one hour a day in the elementary library. Most of her time

is spent in spending time with the students in the library, helping them to learn how to use the books and the equipment.

Land Polaroid by The Herald, March 29, 1954, H. W. McClure.

will be made as soon as it is possible. The central library for the Elementary and Junior High School was established in September 1953. Since that time the school has made great strides toward bringing it up to a high standard. Believing that the library is a most important factor in the reading program, the

books have been properly charged and checked in to the library. She also trains and supervises the student librarians, gives help in locating books and helps to stimulate interest in reading and improvements. Mr. G. W. McClure, Junior High science teacher, spends two hours a day in the library. He is working on

the new curriculum for the school year.

Sincerely yours,  
Mrs. Earline Wade.

mental freedom of Americans. This opens the door for other forms of socialized medicines. If there were a movement to combat some contagious disease that might be something worth while, why not? Is it if the child has decayed teeth? This is an individual matter in my opinion.

Sincerely yours,  
Mr. Lowell D. Fair.

BUTCH FAIR SHOWING GRADUAL IMPROVEMENT

Belle Glade Herald  
We would like to thank the people of Belle Glade for the many kind things they have done for Butch and for us. Butch (Lowell) is showing gradual improvement. He has fairly good movement in his right arm and hand but none in his fingers. But the therapists feel confident they can develop some in time. His mental attitude is still good and he feels confident of recovery. He is a much better but that is to be expected. Butch is still at Jackson Memorial Hospital in Miami.

We still think Belle Glade would be a wonderful little town in which to live. We are sorry it just wasn't meant to be our new "home town".

Sincerely,  
Mrs. Lowell D. Fair.

Editor's Note — Butch Fair, the high school boy paralyzed as a result of a hunting accident several years ago.

NEWS OF GLADES BOYS

of signal communication equipment.

28th Div., Germany — Army Pvt. Dale E. Norman, son of Mr. and Mrs. Roy Norman, 116 NW Avenue B, Belle Glade, is serving with the 28th Infantry Division in Germany.

The "Keystone" division is undergoing intensive training under General George S. Patton, Jr., U.S. Seventh Army.

Private Norman, whose wife, Peggy, lives in Lake City, is an infantryman in Company G of the 127th Regiment.

He entered the Army in August 1952 and arrived overseas last February.

Pvt. Horace A. Austin, son of Mr. and Mrs. Ben Austin, South Street, is serving in the 28th Div. for Germany. There he expects to be based for three years.

Pvt. Artie A. Austin has for several months been stationed at Fort Bragg, North Carolina with the 86th Signal Battalion.

STRIKE BACK AT CANCER

OCEOLA SCHOOL NEWS

By Jimi Roberts

The 4-H Club had an Easter party Wednesday. They made a chart showing what they would do.

All the grades in the school participated in an Easter Egg Hunt. Wednesday afternoon Tuesday morning the sixth grade visited the Florida National Bank. Mr. E. M. Lively showed us around.

David Pierce came for 4-H. Ramona Redmond gave a demonstration on how to even cloth.

Fourth Grade — Left to right, Debbie Baker, Mrs. Cleo Hanes.

Land Polaroid by The Herald, March 29, 1954, Debbie Baker, Mrs. Cleo Hanes.

than the high school students read.

During this past year a set

of encyclopedias was purchased

for the school in the Junior High School classroom. It is kept on a table which can be rolled out of one classroom to another. This was a gift from the P.T.A. library fund which has been greatly appreciated.

These students are on duty as librarians (under the direct supervision of their teacher) during their library hour while

(Continued on Page 7)

each room needs two to four student assistants. These have been instructed by Mrs. Jones and Mr. McClure in checking out books, shelving books, writing circulation notices, arranging books in book displays, and keeping books and magazines in their proper places.

These students are on duty as librarians (under the direct supervision of their teacher) during their library hour while

## THE BELLE GLADE HERALD

KATHLEEN LIVINGSTON, SOCIETY EDITOR  
Office Phone 2806 Home Phone 2800  
All social notes and items of social interest should be communicated before noon Wednesday to insure publication the following Friday.

Mr. and Mrs. Henry Lanier spent yesterday morning at their son and daughter-in-law's, Mr. and Mrs. Lovell-Lanier at Bradenton.

Mr. and Mrs. Herman Cloes are spending Easter vacation in Cuba. They will Wednesday by boat from Miami and plan to return Monday.

Mr. and Mrs. Ralph Kidder were overnight guests Saturday at Rev. and Mrs. Leonard Van derwater, in Clewiston.

Mr. and Mrs. O. J. Pope of Sanford and Mrs. Lucille Johnson of Pahokee, were dinner guests Sunday of Mr. and Mrs. R. A. Cameron.

Mrs. David Questel, Mrs. Richard Townsend, Mrs. Gladys Williams and Mrs. James Bell were guests at the Empress Hotel in Miami Beach last week,

return in June to take up duties of Educational and Music director of the club.

Dr. and Mrs. Victor Mulberg are spending the Easter Holidays visiting Mr. and Mrs. Arthur L. Mulberg in Key West.

Mr. and Mrs. Tempkins G. Foster and son, Doug, of Ferdinand, Fla., returned home Wednesday after visiting in Belle Glade several days.

## EXPERIMENT STATION GROUP ENTERTAINED

Mr. and Mrs. William Wall entertained members of the Everglades Experiment Station Sunday afternoon at their home in Indian River Park.

Calling during the afternoon were Mr. and Mrs. H. E. King, Dr. and Mrs. Robert Allen, Dr. and Mrs. Victor Green and daughter, Mr. and Mrs. G. Smith; Mr. Willard Scheffler, Mr. and Mrs. Thomas Breger, Dr. and Mrs. Thomas Forsee. Also Mrs. Carlotta Summers.

## MISS STANGLING WEDDING AT FRIDA-YA-NITE PARTY

Mrs. Norma Nell Starling was honored at a party Friday night between the Junior-Senior banquet and Prom when Eddie Robinson entertained at his home on W. 1st Street Rd.

Several couples of the junior class were present. Coffee, punch and hors d'oeuvre were served by Miss Beverly Phelan and Johnny Robinson.

## Births

Mr. and Mrs. Burton Rawls, Jr., are the proud parents of a baby girl born April 7, weighing 6 lbs. 5 oz. at the Everglades Memorial Hospital.

Incidentally, Deborah Yvonne, has the same birthday as her father. Mrs. Rawls is the former Margaret Ann Cury of Nashville, Tenn. The paternal grandparents are Mr. and Mrs. Burton Rawls, Sr.

April 11—Mr. and Mrs. Bob Newman (Ruth Prince) announce the birth of a son, not named, at the Good Samaritan Hospital, West Palm Beach.

March 29—Mr. and Mrs. Floyd W. Reynolds (Hazel Altman) announce the birth of twins, Harvey and Harriett, at the Bartow Hospital, Bartow, Fla.

April 14—Mr. and Mrs. Evans

## PEGGY NORMAN TO GRADUATE IN JUNE

and duties of members. Mrs. Paul Llewellyn, president, presided at the business session. The group discussed having yearbooks made for members.

Mrs. Llewellyn and Mrs. Sara Ellis were co-hostesses.

Seminary Singers To  
Sacred Music

The Seminary Singers of  
Asbury Theological Seminary,  
Wilmore, Kentucky, consisting  
of 21 members, under the di-  
recting of Dr. Willard R. Hall,  
will present a program of  
sacred music at 7:30 o'clock  
Monday, April 19th in the Com-

munity Methodist Church of  
Belle Glade.

The concert will include a  
well-balanced program by com-  
posers such as Bach, Schubert,  
Grieg and Kopolyoff, as well as  
contemporary composers such  
as Christopher Tinctorius and  
McKinnon, and a well selected  
group of negro spirituals.

There is no admission charge  
but a free will offering will be  
received.

## CHURCHES OF CHRIST. SCIENTIST

Man's spiritual unity with  
God has been taught and lived by  
Christ Jesus who will be brought  
out at Christian Science services  
Sunday in the Lesson-Sermon  
entitled "Doctrine of Atone-  
ment."

Keynoting the Lesson-Ser-  
mon is the Golden Text from I  
Timothy:

"There is one God, and one  
mediator between God and men,  
the man Christ Jesus; Who gave  
himself a ransom for all, even  
in these last times (25,000)."

The following will be among those read from "Science  
and Health with Key to the  
Scriptures" by Mary Baker  
Eddy:

"We acknowledge Jesus."

**OPTIMISM REGARDING BUSINESS AND JOB PROSPECTS IN NATION TURNS UP—WORLD FOR FIRST TIME IN 13 MONTHS**

By Kenneth Fine, Director, Princeton Research Service. Five weeks ago, 47% of the nation's population expected business and job prospects more or the same amount of greater today across the U. S. than it was just five weeks ago.

At the present time, a majority of the adult population of the country (52%) expects more or the same amount of business and jobs for the U. S. than it had during the past

business and job prospects on the part of the nation's adult population.

Trade findings mark a halt in this decline.

They also indicate that people across the country are not expecting any serious recession in the very near future.

United States Poll staff reporters asked a representative cross-section of the country's adult citizens:

"How do you feel about business conditions in this state—the next few months? Do you think there will be more business and more jobs than during the past year or two or less business and fewer jobs?"

These were the results:

Nationwide	
More or the same amount of business and jobs	52%
More	20%
Same	32%
Less	43%
Not opinionated	5%

Five weeks ago, 47% of the nation's adult population expected more or the same amount of business and jobs; 49% expected less business and fewer jobs.

Such findings also indicate that during the period between March, 1953, and five weeks ago, there was a slow but steady decline in optimism regarding

**THE BELLE GLADE HERALD**

**Everglades Vocational High Wins County Wide Tuberculosis Trophy**

The E. V. H. REVIEW, a product of the local Vocational High School, and printed by THE HERALD for them, contains an article in its last issue, "What Do You Think About TB?" written by Marion Thompson and Bernice Pompey, which has been judged "Best In The Country" by a committee of the Tuberculosis Association.

Mrs. Ruth L. Shepard, Executive Secretary of the local Association is very proud of the achievement of Everglades Vocational High School. It is commendable that this school has such an active interest in combating tuberculosis and in learning the basic rules for good health in their community.

"This Annual School Press Project has two purposes: first it stimulates the interest of students in what is being done and what can be done to combat the disease and to fight T.B.; second it promotes good journalism by providing students with an opportunity to conduct an editorial campaign on a subject of primary importance to youth."

The local committee of the Tuberculosis Association who judged the entries of the five schools in Palm Beach County—James L. Waugh, Miss Ruth Ranson and Mr. Lowery Davis.

"Arrangements will be made for appropriate ceremonies when a beautiful plaque will be presented to Everglades Vocational High School. It was a three year plaque which was won for 1951 by Seacrest High School; 1952 by Lake Worth High School and now this year by Everglades Vocational High School which will be allowed to keep the plaque permanently."

**WHAT DO WE KNOW ABOUT TB?**

Mary Thompson and Bernice Pompey DO WE KNOW THE FACTS? Everyone should know the facts about tuberculosis in order to protect his family, friends, and community.

Tuberculosis is a major communicable disease but T.B. can usually cure if it is treated in time. T.B. is also known as consumption. It isn't inherited; you aren't born with it. You catch T.B. from some one who has it in one of three ways:

1. By breathing air with T.B. germs in it. The person with T.B. may spread the germs by coughing, sneezing, or spitting.

2. By kissing some one who has active T.B.

3. By putting into your mouth things which have not been sterilized after being treated by someone who has active T.B.

Early tuberculosis usually has no symptoms, therefore, when first seen, T.B. can almost always be missed. X-ray chest X-Rays are the best way to find T.B. in the early stages. In advance of T.B., symptoms appear such as: fatigue, loss of appetite, weight, frequent colds, coughing, fever, indigestion, night sweats, and splitting up of blood.

In 1951, T.B. killed more Americans than all other infectious diseases combined. T.B. kills 65 percent of the Americans who die from infectious diseases. These figures have to die: The tragedy of T.B. is not shown by death rates alone. In order to prevent T.B., everyone must work together: the medical profession, voluntary agencies, official agencies, and other groups. A broad tuberculosis control program includes:

1. Reaching the public the facts about tuberculosis and interesting the people in doing something about T.B.

2. Improving living conditions and general health.

3. Finding the person with T.B. easily, treating him, curing him, and preventing the spread of T.B. Rehabilitation of the patient; helping him to return to happy, useful living.

WE TELL OTHERS

Everyone should make himself a committee of one to help fight T.B. by teaching the preventions to others and what can be done if they contact T.B.

We know about tuberculosis long before the kind of it was caused by a germs. Today we know that T.B. is catching and spreads from person to person.

We can fight ignorance among people who believe that T.B. is inherited and can't be cured; telling others how T.B. spreads, to see a doctor at least once a year, and get an X-Ray once a year. By doing this, you can help make your community a healthy place in which to live.

WHAT CAN WE DO TO HELP?

Now more people have spent their pennies for Christmases. Their pennies have grown into millions of dollars. Over the years these dollars

have helped to prove that something can be done about T.B.

The pennies and dollars spent for T.B. Christmas Seals have helped to reduce T.B. death rate by almost 50%.

Let us sell Christmas Seals and donate our extra pennies, large or small, our contributions count.

We know the facts about T.B. help prevent others from catching T.B. and donate our contributions, we can help end the tuberculosis disease.

You have read our article, now answer these questions! What is T.B. about T.B.? Do I tell others what I know? What can I do to help?

You have answered the questions, now get busy! Do something! Help fight T.B.!

**LOCAL GROUP ATTEND JR. RED CROSS MEET**

"What the Junior Red Cross Means," was the topic of Dr. Frank C. Jenkins, director of the Junior Red Cross of the Western States, at a Junior Red Cross meeting recently held in West Palm Beach.

There were representatives of 15 schools to hear the talk. Following the address, the Palm Beach Public School presented "What the Junior Red Cross Means."

Arrangements will be made for appropriate ceremonies when a beautiful plaque will be presented to Everglades Vocational High School.

## CURRICULUM OF

(Continued from Page 2) their classmates are returning books and getting others to read. We find that even the smaller third grade children are very careful in their work and have no trouble assistants.

These assistants are:

Second Grade: Charles Thompson, Joan Fortenberry, Evelyn Harris, Kay Williams.

Third Grade: Sherry Dupont, Robbie Parish, Margaret Miller, Doris Miller, Barbara Wolf, Frances Ball, Michael Berryhill, Anna Marie LeChance.

Fourth Grade: Gloria Smith, Darryl Wood, Penny Connell.

Janet Rhymes, Linda Sun Raina, Iris Rhymes, Eleana Houmes, Fifth Grade: Robbie Thomas, Don Hobbs, Max Ann Miller, Sandra Diven, Dorothy Ziemann, J. I. Morris, Davidson, Sammy Knight, Barbara Kirchner.

Sixth Grade: Phyllis Buss, P. A. G. Parsons, Jane Bettie, Linda Clegg, Marilyn Mathews, Susan Clark.

Seventh Grade: Betty Norman, Bunny Whitehurst, Laura Beth Warren, Dickie Dupere, John Lee, and Georgiana Mills.

Eighth Grade: Shirley Dorn, Carl Williams, Jackie Amato, Lenora Higbee, Cline Faulk, Jay Freeman, Dolores Robbins and John Baxt.

Our needs and plans for the

year to improve the appearance of the room, & a moveable and adjustable bulletin board; & And most of all, the services of a full time librarian, (Utopia).

Most of these things will no doubt come in the near future but they represent our goals and plans for the future.

A new shipment of books has recently been added to the collection. While they are being prepared for the children's use, a "coming attractions" bulletin board display of book jackets was made by Mrs. Spone's sixth grade. Another bulletin board in the entrance hall announced that each of these little ones will receive a library shelf according to the subject matter of the book.

Even the little tots have learned that the E books are all grouped together.

Further interest was created

in these books by a book display. All new books were displayed on library tables. Each table was labeled to show to what classification the books belong. Popular interest was shown in the science stories, biographies and "E" books.

After classes had an opportunity to view the display the books were placed on the shelves.

It was almost impossible to curb the excitement and conversation when the first classes came in to check out these new books.

It was a thrilling sight to see their enthusiasm. It would relieve all anxiety about the younger generation losing all interest in books for television, etc., if you could have seen the first rush — (almost stampede) to get the first chance at these new books.

## COUNTY TO HAVE

## A HEART CLINIC

Dr. Alvin E. Murphy, President Elect of the Florida Heart Association and a member of the Executive Board of the Heart Association of Palm Beach County, and Dr. Sidney Davidson, Director of the Florida Heart Association and also a member of the Executive Committee, attended a State meeting of the Florida Heart Association in St. Petersburg

April 10 and 11th. The organization of a Cardiac Clinic for Palm Beach was a matter fully discussed by the State Board and it was the opinion of this body that Palm Beach County was the logical area for the clinic to be established.

"The Clinic will greatly enhance the program of the Heart Association of Palm Beach County and will meet a great need of the community," said Dr. Murphy. In having our County selected for this Cardiac Clinic, the Heart Association of Palm Beach County is fulfilling the aims of its Educational Program.

The people of the County, by their overwhelming response to the 1954 Heart Fund have established in all our minds their interest in advancing the Heart Association work. The Cardiac Clinic is the next step forward.

We are all proud of this action and will work to get the clinic functioning in the shortest possible time, but such a step takes time", stated Dr. Davidson when commenting.

Dr. Murphy said, "This step in the Heart Association activities in Palm Beach County is outstanding and we are happy to be playing such an important part in the organization of a Cardiac Clinic."

## New Chevrolet Trucks...

do more work per day... more work per dollar!

You save hours on the road.

Thanks to new high-compression power, you can maintain faster speeds without driving at higher maximum speeds. You save fuel and hill-climbing ability lets you save time where it counts.

You save time on deliveries. With new front wheel drive transmission, you save time at every delivery stop. And you can forget about clutching and shifting for power take-offs. You can save 5%, 10%—14% on 1-ton Chevrolet trucks.

You save extra trips. That's because of the extra load space you

get in the new Advance-Design bodies. New pick-up bodies are deeper, new stake and platform bodies are wider and longer. Also, there's more load space in the rear.

You save with lower upkeep, less. Extra chassis strength saves you money on maintenance. There are heavier axle shafts in two-ton models, and chassis lighter and heavy-duty models... stronger frames in all models.

You save on operating costs. New engines like the "Chevrolet 231" gasoline, the "Goldmaster 235" and

the "Jobmaster 261" (optional on 2-ton models at extra cost) deliver increased operating economy.

And your savings start the day you buy. In fact, they start with the low price of the new Chevrolet. Over time over the miles, Chevrolet is America's lowest-priced line of trucks. And the quality of the steel that has a traditionally higher trade-in value.

Come in and see all the wonderful new things you

get in America's number one truck. We'd be glad

to give you the money-saving facts.

**Congressman Rogers' Newspaper  
Poll On National Questions**

1. Do you favor a flexible support farm program rather than the present 80% parity price supports? **Yes 93 No 7**

2. (a) Do you favor amending the Social Security law as recommended by President Eisenhower (that is, extending the coverage to another 10,500,000 individuals not now covered)? **Yes 76 No 24**

(b) Raising the base on which taxes are paid from \$3000 to \$4200 a year? **Yes 66 No 34**

(c) The program to include self-employed, farmers, professional men and other similar individuals? **Yes 72 No 28**

(d) A raise in the minimum and maximum amounts which may be paid under Social Security? **Yes 74 No 26**

3. Do you favor wire tapping as a means of obtaining proof that Communists are secretly and safely in our country? **Yes 88 No 12**

4. President Eisenhower appointed a commission composed of representatives of Labor, Business and the Public to study and report on salaries for Federal Judges and Members of Congress. This Commission recommended that salaries be increased by \$12,500. Do you favor this recommendation? **Yes 44 No 56**

If not, what salary increase would you recommend? **SEE NOTE BELOW**

5. Do you favor submitting a Constitutional Amendment to the States granting 18 year old the right to vote? **Yes 44 No 56**

6. Do you favor legislation authorizing the United States to join with Canada in constructing the St. Lawrence Seaway at an estimated cost of \$10,000,000? **Yes 79 No 21**

7. If a Foreign Aid and Assistance program is continued to the European Nations Congress will have to appropriate \$800 million. Do you think this is wise? **Yes 82 No 8**

There are three phases to this program:

(a) Economic Assistance **Yes 30 No 70**

(b) Military Assistance **Yes 51 No 49**

(c) Technical Assistance **Yes 82 No 8**

8. President Eisenhower has a recommended legislation to provide fire insurance service by the Government permitting private and non-profit insurance companies to provide broader protection in the way of health and hospital assistance. Do you favor this legislation? **Yes 69 No 31**

9. Do you favor legislation defining Communism as a Communist Party and providing that all members of such party be treated as having renounced their allegiance to the United States and as having lost their citizenship? **Yes 90 No 10**

10. Do you favor an increase in Postal Rates on first class mail to:  
(a) Four Cents? **Yes 43 No 57**  
(b) Airmail to Seven Cents? **Yes 49 No 51**

Note: 80% of those voting "no" voted for an increase of \$6,000.

**V. HENDERSON ELECTED  
NEW LEGION COMMANDER**

The American Legion Post 161 elected officers at their last session on April 8.

Commander, Vernon Henderson; 1st vice-commander, Frank Wilson; 2nd vice-commander, Frank Henderson; Chaplain, Rev. Bert Hartline; Finance Officer, Rollin Hoek; Sergeant-at-arms, Jack Mathewson; Adjutant, J. K. of knotty pine and the sidewalls

of the hall.

They voted to put on a fried chicken supper on Thursday, April 15 at the Legion Hall to which the public is invited and proceeds to go toward the building fund. Serving will start at 6 o'clock and continue until all have been served.

All persons interested in good citizenship are cordially invited to attend.

**BAPTIST YOUTH WEEK  
BEGIN EASTER SUNDAY**

The Good Citizenship League, scheduled to meet on Sunday, April 18, will postpone the meeting until April 25 at the First Baptist Church and will assemble at the Canal Point Baptist Church on Sunday, April 25 at 3 o'clock. A motion picture, "Out of the Night" will be shown as a part of the program for the afternoon.

All persons interested in good citizenship are cordially invited to attend.

**YOUTH WEEK**

**BEGIN EASTER SUNDAY**

The Youth Week at the South Bay

Baptist Church will start on Easter Sunday at Sunday School, 9:30 a.m. and the Evening Worship Service.

A study course will follow

Monday through Thursday evenings given by Rev. Joe Clements, pastor of the Canal Point

Baptist Church. Friday evening

the young people of the church

case followed.

Those present were W. C. Alford and Clifford, A. B. Barnes and grandson Billy Miller, M. J. and wife, W. E. Williams, R. E. and wife, James Jackson and Billie R. E. Woodham and Tony, W. E. Clinton and Ray, J. P. Hovas and Johnny Prevatt, William Elliot, Clarence Hall and Rev. John Cooper.

**IS THE RIFLEMAN OUTDATED?**

At this time each year a small group of sincere, hard-working patriotic citizens whom we have elected as Representatives and Senators to the Congress is spending long hours in determining how the funds available to the U.S. Government shall be apportioned among the various branches. I refer, of course, to the Appropriations Committees of the House and Senate. The measure of their task is beyond comprehension, just as are the budgeted figures with which they deal.

The budget transmitted by the President on January 21st for fiscal year 1955 totals 65.6 billion dollars, of which \$6.3 billion, or 9.5%, are recommended for new appropriations this year and \$2.3 billions represent sums made available by previous Congresses for expenditure in the years ahead. The figures in the budget which support them fill a book of over 1300 pages and of a size and thickness comparable to the telephone directories of our largest cities.

Some \$1.2 billions of dollars, or more than 90 percent of the total of new appropriations, are allotted for National Security. These estimates are based on the so-called "New Look" with

its projected 137 air wings, 40,000 operational aircrafts, its nuclear bombs, its atomic weapons, its guided missiles and all the other accepted and experimental weapons of modern warfare.

It will be self-explained, its nuclear bombs, its atomic weapons, its guided missiles and all the other accepted and experimental weapons of modern warfare.

The striking technological advances of the past 15 years, which have profoundly enlarged the scope and scale of warfare, have in no way diminished the importance of the human being in battle. Rather they have increased his importance and while subjecting him to greater hazards have placed greater demands upon him.

And another great soldier, General Jacob L. Devers, then Chief of Army Field Forces, said this:

"Increased fire power of opposing armies, and new weapons have done one thing to the infantryman, and to all other ground troops. It has forced wider dispersion, and increased demands for better training of the individual. It has made it more necessary that he be so certain of his ability to take care of himself with his personal weapons that he will not be afraid to go into battle."

It is beside the point that this amount obviously is insufficient to carry out these many tasks. The disturbing factor is that the amount appropriated is less than that of Congress and some without and even some in the Armed Forces, who will question the need for appropriating any amount whatsoever for these purposes. I believe however, that the view of the "New Look" in marksmanship is it really necessary to instruct our citizens in marksmanship? In this atomic age, how much protection will be needed?

In spite of those skeptics, the vast nature of the new weapons of war will enhance rather than diminish the value of the rifle.

Atomic artillery and guided missiles will mean greater mobility and greater safety for the individual. Armored forces, airborne attacks, and the inevitable guerrilla activities of future wars will post a constant threat to those who live in safety at home. Subversive groups, fifth columnists, and just plain cut-throats will thrive in the confusion resulting from nuclear attack on any one of our major cities. More than ever before, the individual soldier and the individual civilian will be forced to rely upon the weapon with which he is armed, and on his own ability to use it effectively, if he is to survive.

I am not alone in these opinions. Less than six months ago, General Matthew B. Ridgway, Chief of Staff, United States Army, said:

"The striking technological advances of the past 15 years, which have profoundly enlarged the scope and scale of warfare, have in no way diminished the importance of the human being in battle. Rather they have increased his importance and while subjecting him to greater hazards have placed greater demands upon him."

And another great soldier, General Jacob L. Devers, then Chief of Army Field Forces, said this:

"Increased fire power of opposing armies, and new weapons have done one thing to the infantryman, and to all other ground troops. It has forced wider dispersion, and increased demands for better training of the individual. It has made it more necessary that he be so certain of his ability to take care of himself with his personal weapons that he will not be afraid to go into battle."

It is beside the point that this amount obviously is insufficient to carry out these many tasks. The disturbing factor is that the amount appropriated is less than that of Congress and some without and even some in the Armed Forces, who will question the need for appropriating any amount whatsoever for these purposes. I believe however, that the view of the "New Look" in marksmanship is it really necessary to instruct our citizens in marksmanship? In this atomic age, how much protection will be needed?

In spite of those skeptics, the vast nature of the new weapons of war will enhance rather than diminish the value of the rifle. Atomic artillery and guided missiles will mean greater mobility and greater safety for the individual. Armored forces, airborne attacks, and the inevitable guerrilla activities of future wars will post a constant threat to those who live in safety at home. Subversive groups, fifth columnists, and just plain cut-throats will thrive in the confusion resulting from nuclear attack on any one of our major cities. More than ever before, the individual soldier and the individual civilian will be forced to rely upon the weapon with which he is armed, and on his own ability to use it effectively, if he is to survive.

With the end of its season only two weeks off, the BLACK HILL PASSION PLAY at Lake Wales is preparing for Holy Week crowds. Only a few performances remain before the play runs down on the play's second season in the beautiful new Amphitheatre at Lake Wales.

Easter Sunday will be the last time the famous PASSION PLAY may be seen. Holy Week services have been moved to its summer home in South Dakota immediately following the closing here.

A performance on Saturday night, April 17th, has been arranged for the Easter Sunday Service at the Box Tower. The Play is regularly presented on Sunday, Tuesday, and Thursday of each week. All performances are at 8 p.m.

The beautifully staged production is presented on one of the world's largest stages. For two and one-half hours one sees blends of beauty and otherworldly scenes. Christ's last seven days on earth is an impressive production. It is a fine addition to Florida's cultural life.

But the fighting in the next major war may not be confined to the battlefield alone. It has entirely possible that our homeland will be invaded, that our cities will be bombed from the horrors of bombing and assault. It is equally important, therefore, that the civilians who stay at home, employed in war industries, be trained to defend themselves in the use of personal firearms. The chance that would result from atomic attack would place on all of our citizens a greater call for independence, safety and greater need for self-reliance than at any time in the history of our country.

No — the "New Look" has not destroyed the value or the need of instructing our citizens in marksmanship. The "New Look" has also shown the way to balance the budget is to substantially reduce military spending. It is apparent that it is impractical to reduce costs of preparedness except by reducing our national security — a relatively small regular force backed by a vast reservoir of able trained Reserves — at a cost of one-tenth of the Regular.

The development and maintenance of a strong reserve force and a reliable training program for the reserves is important to our national security.

shepherds with their flocks of sheep, the Roman guards on their prancing white horses are all here. As Jesus enters the City on His donkey, the enactment of the old story, enacted by hundreds of colorful and authentic costumes make the streets of ancient Jerusalem come to life.

From the touching scene at Bethany to the beauty of the Last Supper and the excitement of the betrayal and trial scenes, Josef Meier's portrayal of the Man of Nazareth is one of great beauty and depth. The characterization reaches its climax in the powerful scene depicting His tragic suffering and death on the cross. The triumphant resurrection, followed by the beautiful celebration of the Ascension with its glorious burst of colored lights and the swelling chords of the Hallelujah Chorus, fittingly conclude the stirring presentation.

From beginning to end the production at Lake Wales is an impressive addition to Florida's cultural life.

To abandon this tradition, to liquidate the Reserves or to let the Reserves become weak for lack of attention and emphasis would be a disservice to the country. I do not think it should be allowed to happen.

News Notes Off The Cuff: Chances look pretty good now that we will get an extension of the cost-of-living increase of annuities of retired federal workers put in by the Congress two years ago. The House appropriations committee voted necessary funds just the other day... The Senate Labor Committee is trying to act on a proposal to eliminate the "liquidation clause" from the Railroad Retirement Act; a real effort is assured to get this measure through the Senate. As approved by the House, it would eliminate the general liquidation which prohibited railroad workers who drew annuities which they have earned from the railroad retirement fund from also drawing benefits they also have earned under Old Age Insurance.

Engineering GRADUATES MAKING TOP SALARIES

Engineering graduates of the University of Florida have found themselves trained for a comparatively lucrative profession. An evaluation of 267 questionnaires returned by engineering alumni of the University reveals that the largest majority of them have an income ranging

between \$5,000 and \$10,000. Even three out of four engineers graduating from the University are making \$5,000 or more. And, of the 267 reporting make more than \$10,000 a year, while only 33 make below \$5,000.

According to Dean Joseph Well of the College of Engineering at Florida, a young man leaving college could well look to a future in engineering

Want to join the  
**Thrill of the Month Club?**  
It's a great experience!

I SEEKS everybody wants to get behind the wheel of a 1954 Buick CENTURY and drive this "rest performance car."

We haven't seen such interest in years. So we Buick dealers across America have arranged to offer a guest-drive to 1,500,000 people during April—through the Thrill Of The Month Club.

You join simply by driving the car. And you discover the reason for the name when you take your drive—for it initiates you to a rich new thrill from a spectacular new performance.

It's the thrill of commanding instantly

responsive, high-compression V8 power of new record might and silence—and the thrill of getaway with the complete and utter smoothness of Twin-Turbine Dynaflow."

It's the thrill of having swift, sure and superbly easy control with Buick's amazing new front-end geometry, Safety Power Steering, all-coil spring ride, torque-tube steadiness. It's the thrill of sitting in supreme spaciousness and luxurious interiors. It's the thrill of driving with the panoramic visibility of a new kind of back-sweeping windshield.

It's the thrill of this month or any month

and we cordially invite you to try it, at the wheel of a Buick CENTURY.

Whether or not you are ready right now for a new car, we'll be happy to have you join the Thrill Of The Month Club—just by taking a demonstration drive in a 1954 CENTURY.

It's a great experience—too good to miss. Drop in this week for sure!

Standard on ROADMSTER, optional on others too.

Some folks make a specialty of getting into trouble.

Successful is the man who can get plenty of money without letting money get him.

This is Buick's most sensational performance—the Century, shown here in the shiny "Silver" "Hardtop" model, with the top down. It's the kind of top-down convertible that impresses all 1954 Buicks.
